Tableau · Power BI	QuickBooks Online (ProAdvisor)	Lovable
Google Data Studio · Power Query	Command Line · PowerShell	Adobe Illustrator · Photoshop
Excel (Advanced) · Microsoft Access	Google IT Support	Canva

EXPERIENCE

Pawsitive Vibes Veterinary Clinic, Al Ain, United Arab Emirates

DEC 2024 – PRESENT

Chief Executive Officer

- Built Paw Guardian, a custom veterinary practice management app: designed the relational SQL schema (owners, patients, medical histories, inventory) in Supabase with real-time triggers, replacing manual spreadsheet tracking.
- Use QuickBooks Online (ProAdvisor certified) to track financial performance, analyze profit and loss, and forecast revenue models.
- Conduct in-depth competitor and market analysis to optimize service offerings and pricing strategy.
- Analyze weekly marketing performance data across Google and Meta Ads, tracking KPIs and ROI to refine targeting and creative decisions — driving 700K+ user reach and 1,000 customers onboarded in two months.
- Developed and maintain operational spreadsheets for inventory management, client data, and expense tracking.
- Led the clinic's launch end-to-end: licensing, regulatory compliance, hiring, branding, and digital presence.

UC Berkeley Extension, Berkeley, California, USA

MAR 2024 – AUG 2026

Data Analytics Apprentice

- **Pet Market Trend Analysis** (Feb – Mar 2025): analyzed U.S. online pet supply sales data using Python (Pandas, NumPy, Matplotlib), cleaning and merging multiple real datasets to uncover pricing trends, seasonality patterns, regional behavior, and competitor benchmarking insights.
- **Starbucks Malaysia Customer Segmentation** (Oct 2024 – Jan 2025): conducted end-to-end customer analytics in R using K-Means and Ward's Hierarchical Clustering, built an ACSI-based satisfaction model, and translated segmentation findings into retention and loyalty program recommendations.
- **Internet Data File Analyzer** (Mar – Apr 2024): built a Python program performing three-tier analysis (basic stats, group-by operations, trend exploration), automated data downloads, and integrated Matplotlib and SQLite for visualization and storage — reducing processing time by 30% and increasing insights by 25%.

JPMorgan Chase & Co. — Corporate Analyst Development Program (CADP), New York, USA

APR 2024 – MAY 2024

CADP Analyst Trainee

- Built a visualization dashboard using Tableau and Excel.
- Documented a business process and identified opportunities for improvement.
- Developed a PowerPoint presentation to communicate key findings to stakeholders.

Deloitte Australia — Technology Job Simulation (Forage), Australia

APR 2024

Technology Trainee

- Unified two data models using Python and classified data in Excel to draw business conclusions.
- Built a Tableau dashboard and assisted in cybersecurity breach analysis.

KPMG Forage — Data Analytics Consulting Virtual Internship, Australia

MAR 2023 – APR 2023

Data Analytics Trainee

- Assessed data quality issues and proposed mitigation strategies.
- Conducted analysis covering distributions, feature engineering, modeling, and reporting.
- Developed a dashboard summarizing findings and recommendations for Sprocket Central Pty Ltd.

Akar Landscaping Services and Agriculture, Al Ain, United Arab Emirates

SEP 2022 – DEC 2022

Support General Admin Assistant

- Managed order details in internal databases, updated purchase records, and prepared purchase reports.
- Developed and executed a PPE training program for construction staff and supervisors, producing a commercial video and Excel-based business impact analysis to support rollout.

ADDITIONAL EXPERIENCE

Digital Marketing Trainee — London International Studies and Research Center, Dubai, UAE (May – Aug 2021)

Social Media TikTok Intern — The Dean's List, Charlotte, NC, USA (Jun – Aug 2021)

Social Media Marketer — Super Sport, Al Ain, UAE (Aug – Oct 2021)
